Highlights of the Waukesha County Segments

Lying within the Kettle Moraine through most of Waukesha County, the Ice Age Trail occasionally veers west onto an outwash plain where small areas of the Niagara Escarpment are visible.

View kettles, erratics, eskers, drained lake plains, drumlins and kames as you meander through the county. Travel through oak forest, oak openings, wet and dry prairie and along the Oconomowoc, Bark and Scuppernong rivers, too.

Lapham Peak showcases areas of prairie and oak savannah restoration and includes a tower that offers an expansive view of the surrounding landscape.

Scuppernong Prairie, Paradise Springs and Brady's Rock are a few sights to see in the Southern Kettle Moraine State Forest. The visitor center and several campgrounds lie just west of Eagle off Hwy 59.
