Using This Map

This map was created by the Ice Age Trail Alliance based on the Ice Age Trail located on the Ice Age Trail Guidebook (2020-2021 Edition) and updated provided by the Ice Age Trail Alliance. (If you have questions, corrections, or suggestions, contact WPR volunteer Sonja Knauff [sks@midbird.com].

Segments or connecting routes where changes have been made since the 2020-2021 edition of the WPR publication or are anticipated in the near future are noted on the map and in the list with a (+). Because the Ice Age Trail route changes frequently, this is an ever-changing trail map and users should consult these notes. To download a PDF of this map, visit the Ice Age Trail webpage (https://www.iceagetrail.org). This PDF is for reference only and is not intended to be used as a navigation tool.

A Note about Mileages

The mileages listed in the map are based primarily on GPS data collected in the field. If you add up mileages and compare them to the latest mileage, you might find some discrepancies as the mileages on the map do not total exactly what is actually on the ground. The mileages are body-covered by the ever-changing Ice Age Trail.
