

# Plant Sketches

## DRAW THE WORLD AROUND YOU.

Use the blank space below to sketch two plants around you. Pay attention to the details of the plant. How many leaves? What does the stem look like? Does it have berries? Do your best not to touch the plants but only observe.

To complete this activity, draw at least two plants.

### Sketch #1:

A large, empty rectangular box with a thick black border, intended for drawing a plant. The box is currently blank.

**Sketch #2:**

## **Tech Corner**

Use free apps like **iNaturalist** and **PlantSnap** to identify your plant. See if the apps can identify your plants from your sketches too!
